# Protection Films for the ecology-minded Customer Service

Arguments for the ecologically beneficial raw material polythene:

Polythene is a high-grade finished mineral oil product. It is an organic material and the composition is similar to plant fibres on the basis of carbon and hydrogen.

Producing polythene is eco-friendly. Neither contaminants nor dangerous vapors are released. Polythene is a by-product of the mineral oil preparation.

The energy needs when producing polythene films are definitely lower in comparison to other packaging materials (e.g. paper). Therefore, resources are saved.

Our products of polythene do not contain softeners or heavy metal. They are physiologically safe.

Polythene is reusable several times due to their high ultimate strength and wet strength. Therefore, they are eco-friendly.

Eco-friendly and easy to dispose:

Polythene films are ground water neutral

The films can be used to create energy or can be recycled and reused.

Horn & Bauer only uses anti-pollution, heavy metal free polythene mixtures for the production of their protective films.

# Our Environmentally Friendly Solutions

## Protecting our planet is important to us

### Recycling

Collection, homogeneous separation and reuse of plastic waste enables us to produce recycled products that give a second life. Waste that never reaches the oceans does not pose a threat to sensitive ecosystems.

### Low energy demand

Compared to other packaging materials (e.g. paper), the energy required for the production of polyethylene films is significantly lower and resources are conserved.

### Organic material

Polythene is a highly refined petroleum product. It is an organic material, similar in structure to plant fibres based on carbon and hydrogen.

### Physiologically save

Our polyethylene products contain neither plasticizers nor heavy metals.

### Homemade energy

With our combined heat and power plant we cover 25% of our own energy requirements.

**SMART GRIP**  
**Extra non-slip seat protection**  
**Less material - more protection**

**Easy on resources**  
 Conservation of resources due to lower material usage with higher product protection.

**Extra non-slip**  
 Prevents slipping on the surface to be protected. Offers perfect and safe protection.

**Reusable**  
 The material properties allow multiple use of the product.

**INTEGRAL 5 IN 1**  
**Seat cover, floormat, gearstick,**  
**handbreak & steering wheel**

**Extra non-slip**  
 Prevents slipping on the surface to be protected. Offers perfect and safe protection.

**Recycling**  
 Manufacture from more than 50% recycled material.

**Reusable**  
 The material properties allow multiple use of the product.

**THE GREEN ONE**  
**Seat protection made of recycled**  
**material**

**Recycling**  
 Manufacture from more than 50% recycled material.

**Reusable**  
 The material properties allow multiple use of the product.

**BIO PROTECT**  
**Seat protector made of biological**  
**degradable material**

**Biodegradable material**  
 Made of 100% biodegradable material. Certified according to the European standard En 13432.

**Reusable**  
 The material properties allow multiple use of the product.

Beeing professional means:  
**Always a suitable  
solution**

From the economy products manufactured from recycled materials to the unique outstanding non-slip products Horn & Bauer offers the perfect solution for all demands.

Much of the range is supplied in attractive dispenser boxes to keep the products clean and create a professional image.

Always a suitable solution.

# With the use of our products you guarantee a responsible handling of customers vehicles:

- Highest quality and service standards
- Protection of the vehicle interior against oil, liquids, dirty work clothes, dirty hands as well as dirty wheels
- Effective and low-priced
- One-time use always guarantees a new clean product
- Copious advertising space to promote a logo or corporate image
- The final cleaning of the vehicle interior will be reduced to the minimum-saves time and money

## Legend

# for **Work Shop** Experts

### **Non-Slip**

Prevents slipping on the surface to be protected. Offers perfect and safe protection.

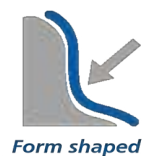

### **In the dispenser box**

Perfect protection against dust from the first to the last piece. Individual removal through the prepunched removal slot. No dust attraction, a clean garage wall is guaranteed. Save transport, easy storage, stackable.

### **Tear resistant**

Because of the special material composition very tough and tear resistant.

### **Form shaped**

Fits perfect to the contours of the seat. Complete covering of the seat, the backrest and the outside of the seat. Narrow head rest area allows a good rear view.

### **Antistatic**

Stops static charging because of the special material components.

### **Personalised print**

Copious advertising space to promote a logo or corporate image. Your customers will keep you in mind

**L · XXL**

### **Sizes from L-XXL**

For suitable seat protection for conventional car seats to large truck seats.

### **Reusable**

Material characteristics permit the multiple use of the product.

### **Extra strong**

Tough and tear resistant. Multiple use and suitable for long-term repairs.

**For your  
Work Shop.**

## The Dispenser Box System

Optimum protection against dust from the first to the last **piece**

Single dispensing due to the punched slit

All other pieces stay protected in **the dispenser box**

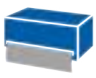

No attraction **of dust** thanks to dispenser box. The wall of the work shop remains clean

Safe transport, easy redispach

**Easy storage,** stackable

**MULTI-USE 2 IN 1**

## MULTI-USE 2 IN 1

Seat cover protection & rubbish sack

- 70% PCR recycled & 100% recyclable
- Save money & space: seat cover and rubbish sack in the same roll
- Slippy outer surface will not cling to operator's clothes
- Tear resistant
- Suitable for all car seats - covers seat and headrest
- The material properties allow multiple use of the product

PRODUCT	QUANTITY	PART NUMBER
Polythene green & white Seat & Rubbish Sack	250 pieces per roll	324420

## SMART GRIP

## THE SMART GRIP

The new generation of seat protection

- Offers more protection with less material
- New design: larger coverage area - less material
- Non-slip inner surface
- Slippy outer surface will not cling to operator's clothes
- Tear resistant
- Suitable for all car seats

PRODUCT	QUANTITY	PART NUMBER
Polythene white / transparent 850 x 1550 mm	400 pieces per roll	320883

## INTEGRAL 5 IN 1

# THE INTEGRAL RECYCLE 5 IN 1

Set solution made of more than 50% recycled material

- The perfect full protection for the car interior with 5 high-quality protective elements in 1 set  
*Elements 1 & 2 - Recycling protective cover & doormat in one piece*

- Narrow head area allows a view into the blind spot during test drivers or rear manoeuvring
- Seat cover dimension: 880 x 1500 mm
- Floormat dimension: 510 x 700mm

### *Element 3 - Non-slip steering wheel protection*

- Special film, blue
- Highly stretchable, non-slip
- Suitable for car steering wheels
- Adapts elastically to the shape of the steering wheel
- Steering wheel dimension: 490 x 150mm

### *Element 4 - Gear lever protection*

- Universally applicable, suitable for all shift lever types

### *Element 5 - Handbrake protection*

- Universally applicable, suitable for all hand brake types

**OPTISTRETCH**

## OPTISTRETCH

### Design

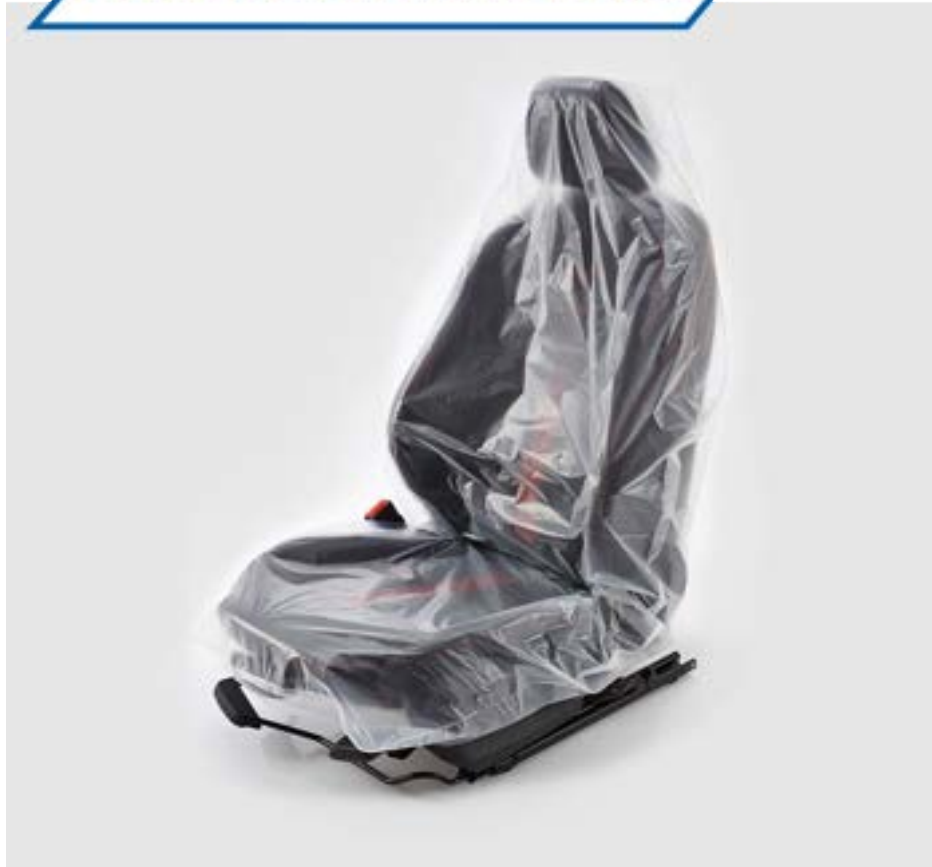

- Variable adjustment to the seat
- Headrest protection, optional
- Coverage of all upholstery surfaces
- Pocket for companion parts
- Access to controls
- Elasticated film optima shower car design

### Material Properties

- Elastic foil
- Strong anti-slip
- Ventilation through perforation/needling
- Foil thickness: from 35 µm

## OPTISTRETCH WITH POCKET

### Design

- Variable adjustment to the seat
- Headrest protection, optional
- Coverage of all upholstery surfaces
- Pocket for companion parts
- Pocket in the seat gap
- Access to controls

### Material Properties

- Elastic foil
- Slightly anti-slip
- Ventilation through perforation/needling
- ESD equipment
- Transparent
- Product on a roll with tear-off perforation
- Optional: product loosely stacked
- Foil thickness: from 45 µm

OPTIFIT

## OPTIFIT SEAT COVER

### Design

- Variable adjustment to the seat
- Headrest protection, optional
- Access to controls

### Material Properties

- Elastic foil
- Very strong anti-slip
- Ventilation through perforation/needling
- Foil thickness: from 20  $\mu\text{m}$
- Transparent
- Product on a roll with tear-off perforation

## TOTAL PROTECTION

# TOTAL PROTECTION

## Design

- Headrest protection, optional
- Variable adjustment to the seat
- Coverage of all upholstery surfaces
- Partial headrest protection
- Pocket in the seat gap
- Pocket for companion parts
- Access to controls

## Material Properties

- Strong anti-slip
- Ventilation through perforation/needling
- Foil thickness: from 45 µm
- ESD equipment
- Transparent
- Product loosely stacked

## HYBRID

## HYBRID

### Design

- Variable adjustment to the seat
- Headrest protection, optional
- Access to controls
- Pocket in the seat gap
- Coverage of all upholstery surfaces

### Material Properties

- Elastic foil, transparent
- Nonwoven breathable, white
- Material thickness: from 30 g/m<sup>2</sup> / 45 µm
- ESD equipment
- Backrest is transparent
- NW / foil, individually wrapped
- Product on a roll

## BACK SEAT

### Design

- Variable adjustment to the seat
- Headrest protection, optional
- Access to controls
- Pocket for companion parts
- Coverage of all upholstery surfaces

### Material Properties

- Optional elastic film
- Ventilation through perforation/needling
- Foil thickness: from 30  $\mu\text{m}$
- ESD equipment
- Transparent
- Product on a roll with tear-off perforation

## STEERING WHEEL COVERS

## STEERING WHEEL COVERS

Suitable for car steering wheels

- Special blue- transparent film
- Very stretchy
- Non-slip
- Dust protected in the practical dispenser box

PRODUCT	QUANTITY	PART NUMBER
Steering wheel protection	500 pieces per box	300127

## STRETCH WRAP STEERING WHEEL

## STEERING WHEEL WRAP WITH HANDLE

Rolls of wrap steering wheel with handles

- Stretchy, non-slip self adhesive film
- Practical easy to use
- Each box contains 10 rolls and 10 handles
- Covers approx. 215 steering wheels

PRODUCT	QUANTITY	PART NUMBER
Steering wheel protection with handle	1 box 10 rolls x 300 meter	300121

## ELASTICATED STEERING WHEEL

## PROTECTION WITH ELASTICATED RIM

Suitable for car steering wheels

- Protection against dust, dirt and grime
- Manufactured from polythene
- Suitable for all car steering wheels
- Dust protected in a practical dispenser box

PRODUCT	QUANTITY	PART NUMBER
Elasticated steering wheel protection	250 pieces per box	316618

## HANDBRAKE AND GEAR LEVER

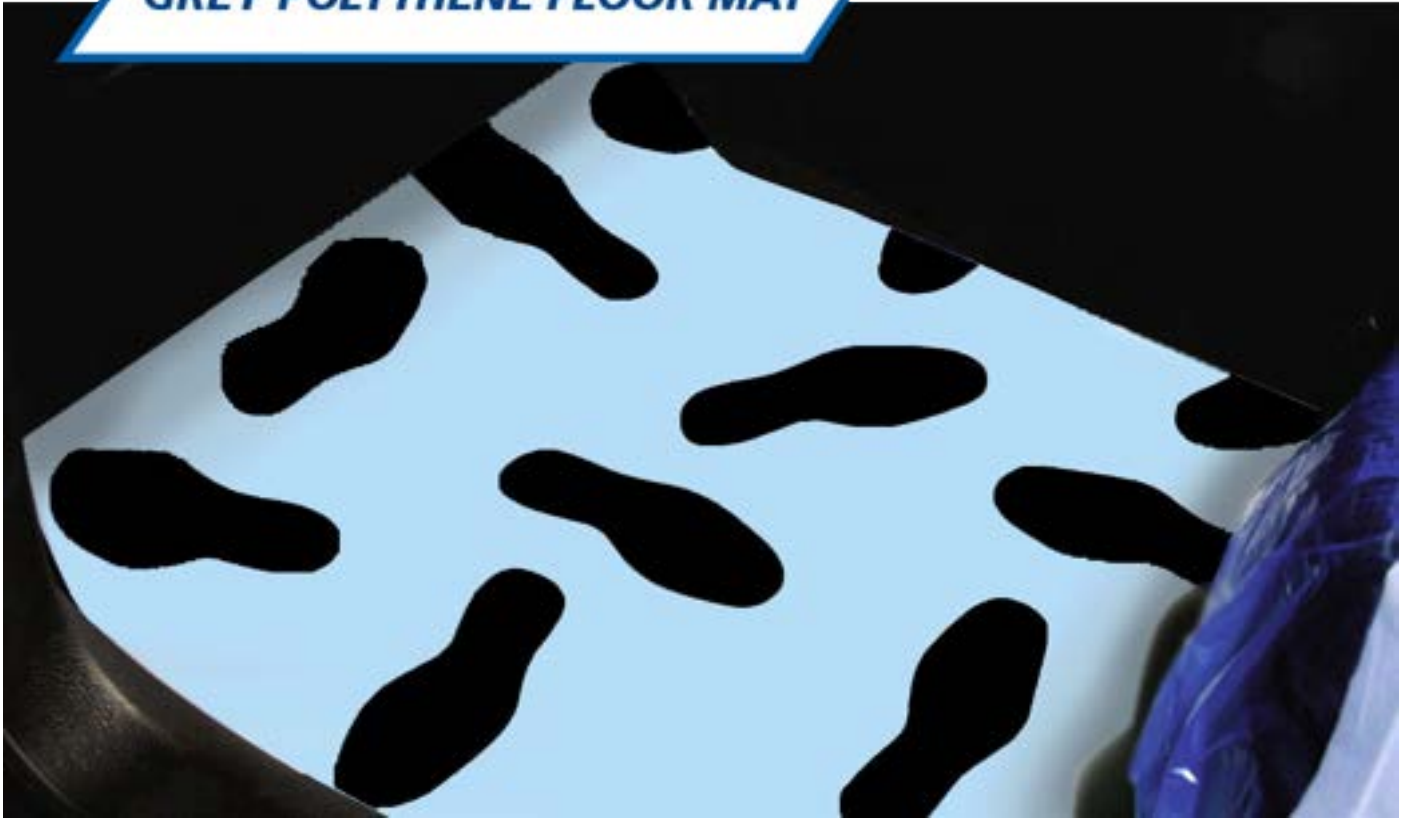

# HANDBRAKE AND GEAR LEVER PROTECTION

Suitable for all cars

- Elasticated bottom holds it in place
- Protection against dust, dirt and grime
- Manufactured from polythene
- Suitable for all car steering wheels
- Dust protected in a practical dispenser box

PRODUCT	QUANTITY	PART NUMBER
Handbrake and gear lever	500 pieces per box	316826

## GREY POLYTHENE FLOOR MAT

## GREY POLYTHENE FLOOR MAT

Printed foot marks in recycled polythene

- Non-slip polythene on one side
- Floor mat for protection against oil, dirt, water
- Dust protected in the practical dispenser box

PRODUCT	QUANTITY	PART NUMBER
Grey recycled polythene with print "Multi Feet" 400 x 550 mm	500 pieces per box	308182

## WHITE POLYTHENE FLOOR MAT

## WHITE POLYTHENE FLOOR MAT

Standard floor mat with printed feet

- Non-slip polythene on one side
- Floor mat for protection against oil, dirt, water
- Dust protected in the practical dispenser box

PRODUCT	QUANTITY	PART NUMBER
White polythene with print "Feet" 400 x 550 mm	500 pieces per box	300137

**LARGE WHITE POLYTHENE FLOOR MAT**

## WHITE POLYTHENE FLOOR MAT

Plain large white polythene floor mat

- Floor mat for protection against oil, dirt, water
- Dust protected in the practical dispenser box

PRODUCT	QUANTITY	PART NUMBER
Large polythene floor mat	250 pieces per roll	308195

## PAPER CREPE FLOOR MAT

# RECYCLABLE PAPER CREPE FLOOR MAT

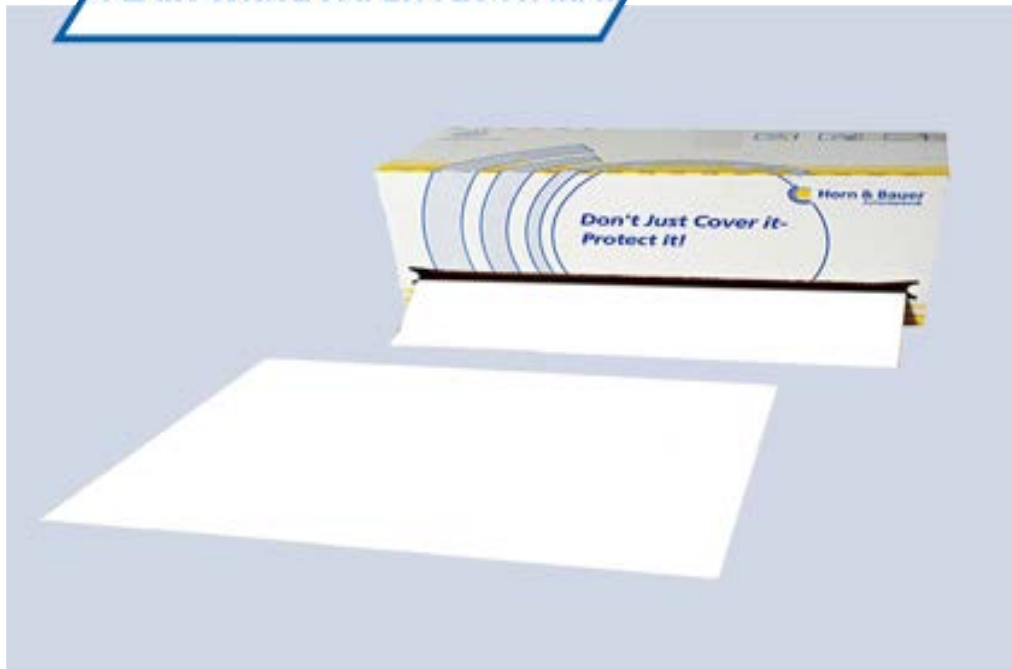

Plain brown recycled crepe paper floor mat

- Floor mat for protection against dirt
- Dust protected in the practical dispenser box

PRODUCT	QUANTITY	PART NUMBER
Light brown crepe 70 g/m <sup>2</sup> 500 x 370 mm	500 pieces per box	312970

## PLAIN WHITE PAPER FLOOR MAT

## WHITE PAPER FLOOR MAT

Suitable for all cars

- Floor mat for protection against dirt
- Dust protected in the practical dispenser box

PRODUCT	QUANTITY	PART NUMBER
White crepe 70 g/m <sup>2</sup> 375 x 500 mm	500 pieces per box	323605

## PLAIN RECYCLED PAPER FLOOR MAT

## PLAIN SPECIAL CREPE PAPER FLOOR MAT

Suitable for all cars

- Floor mat for protection against dirt
- Dust protected in the practical dispenser box
- Printed on request

PRODUCT	QUANTITY	PART NUMBER
Special crepe 70 g/m <sup>2</sup> 375 x 500 mm	500 pieces per box	323621

**SMASHWRAP**

## SMASHWRAP

Self-adhesive protection film for multiple use

- Suitable for broken car windows, door cladding, interior protection, valeting work, surface wing, sill & bonnet protection
- Strong and flexible
- Protects car interiors from rain dirt and other weather conditions
- Unsuitable for long term application to painted surfaces (e.g. transport protection for vehicles)

PRODUCT	QUANTITY	PART NUMBER
Blue adhesive film 30cm x 100m	1 roll	310322
Blue adhesive film 90cm x 100m	1 roll	310321
Blue adhesive film 60cm x 100m	1 roll	317468
Green adhesive film 60cm x 100m	1 roll	321086

## RUBBISH SACKS

# INDUSTRIAL RUBBISH SACKS

Suitable for all work purposes

- Heavy duty
- Large capacity
- Perforated rolls

PRODUCT	QUANTITY	PART NUMBER
Black rubbish sacks 700 x 1100 mm 50 µ	150 pieces per roll	308202
Green rubbish sacks 700 x 1100 mm 60 µ	100 pieces per roll	300170

# Being professional means: Always the right solution at hand!

Our range of masking films as well as other protection-, special films and accessories meet the needs and requirements of collision repair in work- and paint shops.

We offer solutions from premium brands like WONDERMASK® \*\*\*\*\*LitePlus – in 1988 which was the revolution of masking technology: The first paint adhesive film – WONDERMASK® \*\*\*AquaFit, WONDERMASK® WPS up to simple eco-line products or other films for the protection of glasses, lights, spray booth walls, mixing rooms, mixing tables, floors or gun cleaning machines.

## Legend for Body- and Paint Shop Professionals

### 6M Technique

One product for all types of vehicles. Large vehicles like transporters, SUVs and others can be covered from front to back with the „6M technique“ and cars can be covered from side to side.

### Easy to Cut

Very good cutting ability.

### Tape Resistant

Tape can be repositioned.

### Water Resistant – No Marks

No marks when used on damp vehicles, no bleed-through of paint and water.

### Static

All parts of the vehicle are protected to avoid paint mist, because the film clings to the vehicle.

### Resilient

Extremely strong. Very tear resistant during the masking process.

Covering:

# Avoid unnecessary work during paint preparation

During painting not only the performance but also the preparation is important. The masking of vehicles or parts must be easy.

Before masking, the first question arises which material would be the best to apply.

Without a doubt, masking films are definitely one step ahead.

Since the introduction of our paint absorbent **masking film, Wondermask® Classic** during the Automechanica in Frankfurt 1988, this innovative masking technique has been implemented worldwide.

The features on the occasion of this special film guarantee to **save time and money during the process of covering vehicles**. The sizes 4, 5 and 6 meter completely cover the vehicles.

The use of smaller films or paper is not only time consuming but also expensive.

In comparison to paper, which is offered in smaller width, the application of masking film is a single application process no extras required.

Masking films are **lint-free** and in contrast to paper do not contain fibres. Therefore, **no additional dust formation** can develop. Soaking of the film is not possible.

## The 6M Technique!

Transporters and bigger vehicles can be covered in driving direction from front to back due to the width of 6 meters. Cars can be covered from side to side (door to door) with the width of 6 meters. **One masking film width for all vehicles.**

Your advantage: Saves time, storage and money!

WONDERMASK® \*\*\*\*\*LitePlus is available in widths from 25 cm to 600 cm.

## No Water Stains

Water stains are common, caused by residual moisture.

With the use of Horn & Bauer WONDERMASK® \*\*\*\*\*LitePlus and AQUAFIT the staining risks are minimised.

## Correction of Tape

Most of the time when using standard films the tape can not be repositioned and the film will be damaged. The material characteristics of WONDERMASK® \*\*\*\*\*LitePlus films allow that **the tape can be easily removed and corrected** without a damage on the masking film.

## Cutting Ability and Static

A very good cutting and static ability will improve the productivity to make the working steps faster and provide the basis for a save and professional masking to improve the quality. WONDERMASK® \*\*\*\*\*LitePlus meets all these expectations.

125°C  
110°C

## Use of infrared Drying on Masking Films

Masking films must have a high heat resistancy when using infrared dryers. WONDERMASK® \*\*\*\*\*LitePlus is heat resistant up to 125°C so that there is no problem with the use of infrared dryers.

## Bad Experiences with Paint Mist?

Sometimes it happens that when painting in the lower part of the vehicle, parts of the **paint mist** crawl under the car. If the paint film hangs down to the floor, the paint mist cannot escape to the outside. It rises under the film and settles on the top of the car.

You can **prevent this** by pulling the film 20-30 cm from the ground so that it is flush with the lower edge on the opposite side.

## Wondermask® Lite Plus

- Improved formulation: optimised cutting behaviour
- No bleed-through of water or paint
- Heat resistant up to 125° C
- Also suitable for foiled vehicles
- Gauge: 18 µm

PRODUCT	QUANTITY	PART NUMBER
Wondermask Lite Plus 0.5m x 500m	1 roll dispenser box	305478
Wondermask Lite Plus 1m x 500m	1 roll dispenser box	305527

- No Marks

## Wondermask® WPS

Wheel Paint System provides dramatic time savings compared to common methods like using paper and tape (less than 2 minutes)

- Considerable savings of tape and paper
- No rework
- Suitable for all car rims from 13" - 23"
- Easy handling due to highly elastic material components
- No need to remove wheel from rim

PRODUCT	QUANTITY	PART NUMBER
Wheel masking WPS	1 roll 80 pieces	312406
Wheel masking WPS	1 box 20 pieces	323679

**OPTICLEAN**

## Self adhesive protection film

Keeps paint mixing rooms, tables, mixing scales, floors and spray booth cabins clean

- Antistatic
- Strong adhesive inside, therefore non-slip
- Extreme non-slip on the outside due to special surface structure
- Tough and tear resistant
- No glue residues

PRODUCT	QUANTITY	PART NUMBER
Grey polythene	1 roll 25 meter	312082

## Floorwell Adhesive Film

- Low track acrylic adhesive coated
- Low density
- Not suitable for contract carpets
- Strong, extreme tear resistant

PRODUCT	QUANTITY	PART NUMBER
PE Film 60cm	1 roll 100m	323658

## SPRAY BOOTH LINING FILM

## Paint Absorbent Spray Booth Protection

PRODUCT	QUANTITY	PART NUMBER
Polythene pre-taped, static 250 cm folded down to 40 cm, with extended handle for easy application	1 box 9 rolls 2.5m x 20m	318631
White polythene, static 250 cm folded down to 90 cm	1 roll 2.6m x 200m	301777

## PRE-TAPED MASKING FILM

## Left & Right Pre-Taped Masking Film

Produced either flat or multi-folded film

- Bespoke manufactured to order
- Temperature 110°C > 180°C
- Static or Antistatic
- Low and high temperature available
- Various fine line or crepe back tapes can be applied to the dispensed rolls
- Corona treated for paint absorbency

PRODUCT	QUANTITY	PART NUMBER
1" Tape Left Hand HTO 140-160 °C 110mm x 25 µm	Box 20 rolls	322963
1" Tape Right Hand HTO 140-160 °C 110mm x 25 µm	Box 20 rolls	322962
2" Tape Right Hand HTO 140-160 °C 110mm x 25 µm	Box 12 rolls	321545

## Self-Adhesive Transparent Protection Film

Keeps panes and lights in spray booth cabins clean  
Protects Displays and Touchpads

- Tear resistant
- Perfect cutting ability
- Self-adhesive
- Easy to apply with applicator
- Easy to remove without glue residuals
- Applicable for all smooth and dust free surfaces

PRODUCT	QUANTITY	PART NUMBER
Transparent polythene 70 cm	1 box 30m	321901
Applicator 19 x 12 cm	1 piece	322113

## Paint Drop Remover

- A high quality special devise for easy removal of paint drops and dust enclosures

PRODUCT	QUANTITY	PART NUMBER
Paint drop remover on string	1 box 1 piece	300258

## Combination Holder for Paint Drop Remover

The combined magnetic holder for secure guidance of the paint drop remover with straight or bevelled guide notch

- Abrasive disks are fixed on the slightly curved Vinyl or Velcro surface for selective works

PRODUCT	QUANTITY	PART NUMBER
With cling surface vinyl straight	1 piece	301137
With cling surface vinyl bevelled	1 piece	301138
With cling surface velcro straight	1 piece	302201
With cling surface velcro bevelled	1 piece	302202

## Filler Spreader

PRODUCT	QUANTITY	PART NUMBER
Standard spreaders	Box 100 pieces	323651

A close-up photograph of a person's hands, wearing a blue long-sleeved shirt, working on a green, curved automotive part. The person is using a tool, possibly a screwdriver, to adjust or secure a component. The background is blurred, showing what appears to be a workshop or garage setting.

## Equipment & Accessories

# Wall Brackets for Dispenser Boxes

- Suitable for seat covers, floor mat and steering wheel protection

PRODUCT	QUANTITY	PART NUMBER
Dispenser box blue painted 1 bar	1 piece	308016
Dispenser box blue painted 3 bars	1 piece	308015

# Mobile Unit for Dispenser Box

- Mobile, practical working aid when working with Wondermask® in the dispenser box

PRODUCT	QUANTITY	PART NUMBER
Galvanised partly assembled	1 piece	306920

# Mobile Masking Dispenser

- Practical support for a roll when working with masking film
- Flexible for different measurements

PRODUCT	QUANTITY	PART NUMBER
Yellow painted partly assembled	1 piece	323660

# Dispenser for Opticlean

PRODUCT	QUANTITY	PART NUMBER
Dispenser 100 cm width blue painted partly assembled	1 piece	321509

# Cutter with magnet

- Specially coated blade clings readily to hand on metallic items eg. dispensers

PRODUCT	QUANTITY	PART NUMBER
Cutter with magnet	1 box 50 pieces	320915

# White cutter

- Accelerated cutting
- Extended durability

PRODUCT	QUANTITY	PART NUMBER
White cutter	1 piece	311627
White cutter	Pack 4 pieces	323720

# Snitty

- Cutter with replaceable blade - by turning the blade all 4 sides can be used

PRODUCT	QUANTITY	PART NUMBER
Snitty	1 piece	300288
Replaceable blades	1 box 50 pieces	301310

# Holder for rubbish sacks with lid

PRODUCT	QUANTITY	PART NUMBER
Plastic coloured	1 piece	300253
